School education goal

- 1. To develop students who are capable of thinking for themselves by improving their basic academic skills
- 2. To develop students who are respectful and considerate of others and of themselves.
- 3. To foster students who are physically and mentally strong and flexible.
- 4. To nurture students who value their connection to the community and have diverse perspectives.

Image of future students

Students who can think and act autonomously and with respect for themselves and others.

Vision of the school

- 1. Trusted School
- 2. Safe and secure school
- 3. School that cooperates with parents and the community

Club activity

iub activity	
Soccer	The team practices after school on weekdays and plays matches on Saturdays and Sundays, five days a week. While valuing everyday school life, which is the foundation of soccer, we work hard every day to achieve our goal of competing in the Osaka Prefecture Central Tournament.
	and the second
Track and field	The Track and Field Club is active mainly on Mondays, Tuesdays, Thursdays, Fridays, and Saturdays, and offers various events such as short distance, long distance, throwing, and long jump. Many students practice every day, and have the slogan, "The theme is challenge".
Table tennis	We value "greetings, gratitude, and effort" and aim for personal growth through the activities of the table tennis club. While valuing our daily school life, we practice hard every day to achieve results in various tournaments.

Badminton	The badminton club has 14 members. On weekdays, we practice in the gym on Mondays and Wednesdays, morning practice on Thursdays, and outside practice on Fridays. The mood of the club is very good, and everyone enjoys their activities.
Volleyball	The volleyball team has 12 second-year students and 5 first- year students. We practice in the gym on Wednesdays, Thursdays, and Saturdays, and outside on Mondays and Fridays. Even beginners can enjoy playing volleyball, so please join us!
Boys' basketball	We have 8 second-year students and 9 first-year students. We enjoy practicing every day to achieve our team's goal of becoming the best four in the Mishima area! We aim to be a club where we can grow not only technically but also mentally and physically.

Girls' basketball	We have 3 second-year students and 9 first-year students. We practice cheerfully and energetically with the motto of "A team to be cheered". Regardless of grade, we face challenges every day and are in the process of growing as individuals and as a team!
Boys' tennis	We have one second-year student and 15 first-year students with the goal of winning as many matches as possible. We are able to practice in a practical match format using various combinations because there are many members in the club.
Girls' tennis	There are 16 members. We are working hard to win tournaments while demonstrating the results of our daily practice in practice matches. We aim to be a "fun, energetic, and competitive" club!

Baseball	The slogan of the baseball club is "Diligence - One for all, all for one". We are always calling out to each other and engaging in friendly competition in our daily club activities.
Swimming	We swim in the pool in summer and we work on our fitness on the track, running, and flexibility in winter. The number of club members has increased, and we have won more top prizes in competitions. Our activities are fun and friendly both in summer and winter.
Brass band	In addition to performances on campus, the band is also active in the community, performing at the Sakura Bazaar, the Shimamoto Town Cultural Festival, and other events. In the 2024 brass band competition, they won the silver prize at the Hokusetsu Regional Competition.

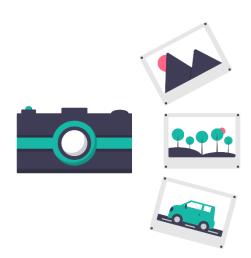

Handicraft	The club's main activities are the production of a club magazine several times a year and the creation of large works of art. The club's paintings are always displayed in front of the art room. Please take a look. We enjoy drawing, talking, and moving about all kinds of things together.
Technology	The Technology Club is active on Mondays and Thursdays. Our main activities are tablet-based works and scratch. In the field, we grow vegetables and other plants, and have assigned watering duty for them outside of club activities.
